

A letter from the Chair:

On behalf of the Oak Grove Foundation, I want to thank you for your contributions to the Foundation and Oak Grove Elementary in 2018. We were thrilled to **have obtained STEM certification for the entire school** this past spring through the hard work of the School's faculty, staff, parents and the Foundation! Your contributions have given the dedicated staff the resources they need to provide our children with the best possible learning experience.

As Principal Mauborgne says, "Every dollar given to the Foundation has an impact on children." We want to share with you some of the ways your generous contributions have supported our children's education this year:

- New computers and a 3D printer
- New furniture for the STEM room
- Funding for our fantastic literacy coach and STEM coordinator
- Grants for teachers to bring innovative programs to the classroom
- Additional training for our dedicated teachers
- Incentives to reward and retain top teachers
- Educational consultants to implement certified programs

Rather than talking about "gifts" or "donations" to the Foundation in coming years, I suggest we talk about "investments." **When you write a check to support the Foundation or purchase something at the Campaign Kickoff Party and Auction, you are investing in your child(ren) and our special community.**

Finally, 2019 marks **the ten year anniversary of the Foundation!** Oak Grove Elementary would not be the place that it is today if not for the investments of our families and neighbors over the past decade. Let's ensure this community remains strong for decades to come!

Amity Farrar
2018-2019 Oak Grove Elementary Foundation Chair

Oak Grove Foundation was created in 2009 as a non-profit (501(c)(3) formed by parents and teachers that supports the quality of education at OGE through investments in teachers, technology and materials -- funded entirely through YOUR donations!

2018 Accomplishments

With your generous support, the Oak Grove Foundation provided funding to supplement:

Teachers' Education | Academic Enrichment | Classroom Excellence

STEM Coordinator (Science, Technology, Engineering, and Math).

STEM Coordinator Kendall Xides implemented programs and teacher training for our STEM program. Mr. McCarthy and Ms. Xides' efforts **helped the School achieve AdvancED STEM certification in Spring 2018 – a significant accomplishment!**

Literacy Coach. Literacy Coach Stacy Welch worked with K-2nd grade students to assist them with reading skills.

STEM. The Foundation funded supplies for our ongoing STEM program. A few examples:

- STEM Books
- Special STEM-themed Days
- Almost \$10k worth of technology
- Lego Night
- Atlanta History Center trunk rental

Higher Opportunities for Teachers ("HOT"). The Foundation funded tuition costs for teachers and staff from all grade levels to attend several conferences and courses including:

- Summer STEM Institute for ALL OGE teachers!
- Math training for 4th grade teachers
- Health and physical fitness training for Coaches Anberg and Owen

Big Ideas Grants. The Foundation awarded several grants for teachers for enrichment activities in the classroom including:

- Newspaper subscription for special education classrooms
- Kindergarten teaching software

Leadership Stipends. The Foundation provided over \$10,000 in incentives to reward and retain our amazing teachers who serve on the Building Leadership Team, STEM team, and as grade level chairs.

A letter from our Principal:

As we approach the “Opening Day” of the Annual Campaign for Education for Oak Grove’s Foundation, **I am excited to share the many ways the Foundation has touched every student in the building.** The list continues to grow as people continue to give. Thank you for providing so generously for all students. As you invest in them, you are shaping the future.

Your gift to the Foundation provides grants for teachers to attend conferences and other continuing education opportunities. Staff members use the information and skills they learn to help students learn in different ways.

Another direct impact of the Foundation is closing reading gaps is through a part-time literacy coach. Mrs. Stacy Welch’s work with small groups of students in Kindergarten through 2nd grade continues to be successful, and the Foundation has agreed to renew her contract another year! Students not receiving direct assistance from Mrs. Welch benefit from the smaller class size and more time with the teacher while other students are working with Mrs. Welch. It’s a “Win-Win” for all!

Since receiving the AdvancED STEM certification in May 2018, the Foundation continues to provide support for the growth and sustainability of the STEM initiative. The Foundation will also continue to support STEM/STEAM through the part-time coordinator, Mrs. Kendall Xides. Mrs. Xides continues to plan STEM-focused activities for the entire school and provides support to the staff directly and through the STEM committee. Mrs. Xides can often be found providing meaningful enrichment in the garden and/or writing fun facts on the board to increase background knowledge. She has a gift for stimulating interest in science and technology, even in reluctant learners. Mrs. Xides continues to work collaboratively with teachers as we seek research-based, real life resources to provide meaningful experiences for children.

Obtaining STEM certification was the first step. Now we are required to show growth within the program in order to keep our certification. The Foundation supports the sustainability of our STEM program through the Summer STEM Institute (“SSI”) for teachers. Planning meaningful project-based learning opportunities and experiences takes time and collaboration, and the SSI provides this opportunity.

It is my goal to ensure every student has access to technology. It is critical students have experience with both Apple and MicroSoft platforms so they can thrive in a digital society. Last year, through your generosity, the Foundation purchased six Macs and a 3-D printer for student use. While devices are not intended to replace great teachers, teachers use technology to enhance the overall learning, as well as teach the research and design processes. It is my goal to have six more Macs added this year to give students the support they need to do creative design for STEM/STEAM projects. Your generous gift can help make this dream a reality.

If there is a surplus in this year’s campaign, we would love to hire a part-time math coach to provide support to grades 3 – 5 to close gaps in learning. This person would function in a similar way to the literacy coach, providing math instruction for those who need additional help, which benefits all students.

The Foundation does so much to support and enrich the instructional program at Oak Grove by sending teachers to conferences, funding staff positions, purchasing resources, and providing technology for all students. Every dollar given to the Foundation has an impact on children. The Foundation touches EVERY child at Oak Grove! I sincerely appreciate the instructional support provided by the Foundation, funded by your generosity. Thank you for investing in our children and community.

Sincerely,

Lynda Mauborgne
